Clean Tech and Early College in the High School

Early College and Career Academy/PTECH is also available through SUNY Adirondack and BOCES, in the areas of, Business and Entrepreneurship, IT Computing Network and Cybersecurity, Electrical Technology/Advanced Manufacturing, and New Media.

These programs are pathways to higher education that lead to careers in STEM fields through rigorous academic programming and a collaborative approach to learning. Interested students should see Mr. Castrio or their high school Counselor today!

Other Programs: Vocational Education - BOCES-SUNY Adirondack

- ❖ Career & Technical Education programs are available for High School Juniors & Seniors at the Myers Center in Saratoga. ***Students must be on track to graduate with their class and have a strong attendance record to be considered for these programs.***
- ❖ Some of the possible choices for a CTE program include:
 - Automotive Technology
 - Building Trades
 - Criminal Justice
 - Early Childhood Education
 - Cosmetology
 - Culinary
- ❖ New Visions Pre-Professional Programs available to qualified students in their senior year (Engineering/Health Care)
- ❖ IB Program- International Baccalaureate Diploma (Queensbury HS)
- ❖ Early College in the High School programs through BOCES and SUNY Adirondack in Business Entrepreneurship, IT Computer Networking, New Media and Electrical Technology/Advanced Manufacturing.

* Must also pass the final exam in French 3 or Spanish 3

Additional Diploma Distinctions

- **Regents or Advanced Regents Diploma with Honors Designation**
Eligible students will have an **average of 90** or above on required Regents exams
- **Mastery in Science** ~ 85 or higher on all 3 science Regents exams
- **Mastery in Math** ~85 or higher on all 3 math Regents exams
- **CTE Endorsement** ~BOCES/CTE students who have earned a 65 on all Regents exams and passed all CTE required assessments.

Additional Information

AIS - Academic Intervention Services

- AIS courses are offered in English, Math, Science, Global History, and United States History
- Inclusion in these classes is mandated based upon performance on standardized tests and the state assessment
- Students remain in these classes until they demonstrate the ability to pass the Regents in English, Math, Science, Global History, and United States History
- AIS courses are not credit bearing

8th Grade Testing

Take your time and do your best!

Your results on these tests may impact your high school schedule!!

Scheduling

- Classes may be offered in a single period, all year long (40 minutes/day)
- Courses may be offered as semester classes or full year classes
- PE, Science labs, ELA labs and some elective classes are offered every other day throughout the year.

Scheduling High School Courses

- Course Requests (initially completed in 8th grade classes)
- Parent Conferences (to be scheduled by the High School Counselor)
- Course Offering Booklet (course descriptions and honors policy - can be found on our school website (www.corinthcsd.org))
- Graduation Contracts

NCAA Clearinghouse

- Student-athletes wishing to play Division I or Division II athletics must be cleared by the NCAA in order to be eligible to participate
- This process involves completing an application at the start of the student's senior year in high school
- A student's transcript, including rigorous coursework and SAT/ACT scores are evaluated to determine eligibility
