### Pesticide Neighbor Notification Law

The Corinth Central School District is taking an aggressive, yet precautionary, approach to dealing with pesticides in and around its schools. The development and implementation of the district's integrated pest management (IPM) program is the key in achieving pesticide use reduction while providing effective and economical pest control. Any public or nonpublic elementary or secondary school that decides to use a pesticide product as a last resort in addressing a pest problem must comply with the Pesticide Neighbor Notification Law (*section 409-h of the Education Law*) effective July 1, 2001. This notice is to inform all parents, guardians, and staff that pesticide products may be used periodically throughout the school year. Please note that effective May 18, 2011 that pesticide use on school athletic fields and playgrounds is prohibited except in a case where the Board of Education deems that an emergency exists. Any parents, guardians and staff who wish to receive 48-hour written advanced notice from the schools of an actual pesticide application should contact Jim Grady at 518-654-9005.
