**Corinth New Visitor Management System**

In an effort to further improve the safety and security of the Corinth campus, the district has installed a visitor management system that captures information from a driver's license and/or valid government-issued ID. Starting on February 1, 2019, visitors will be asked to present their

driver's license or other form of photo identification if they wish to travel beyond the main office during school hours.

This change may take some getting used to, therefore the next month will be used as an acclimation period to identify ways to improve the process. If you have any questions, please contact the Superintendent's office at (518) 654-2601. The district appreciates your assistance in making our schools safer for our students and staff.
